

INFORMATION SHEET

Contacting Politicians about NAC Corruption & Mismanagement

August 2018

Thank you for your interest in alerting Local, County, State and Federal officials about the shameful corruption and mismanagement at the Newport Aquatic Center, and the apparent unwillingness of Law Enforcement at any level of government to do something about it.

Your message to officials and candidates can say whatever you would like and could include the following key points:

1. There is abundant evidence filed in Court of a pattern of illegal behavior by Board Members and employees of Newport Aquatic Center, a California nonprofit public benefit corporation and Federal 501(c)3.
2. Details of allegations can be found at www.nacinformation.com
3. Despite alerting the authorities at the local, county, State and Federal levels of this misconduct, concerned citizens have not been able to get law enforcement to take action in response to compelling evidence of tax fraud, theft of charitable assets, illegal wiretapping, breaches of fiduciary duty, employment law violations, self-dealing transactions, and other illegal and inappropriate activity.
4. As one of your constituents, I respectfully request that you use your good office to have these matters investigated urgently by appropriate authorities, that this essential public institution can be returned to good governance and fulfill its mission to serve the children, families and other citizens of Orange County.
